

**GARY V. MILLER**  
**COUNTY SUPERVISOR, 5TH DISTRICT**

My experience as an elected official spans thirteen years. I served on the Mt. San Antonio Community College Governing Board (president two years) and the West Covina City Council. During this time, I learned the importance of working together with government entities, developers, and the community to accomplish goals.

After moving to South Orange County, I became active working with city officials regarding commercial developments and campaigning against the airport at El Toro.

As your supervisor, I will:

Strengthen our economy by working with Chambers of Commerce to create jobs through commercial developments.

Protect South County's natural beauty and open spaces by working together with environmentalists and developers.

Aid the Sheriff's Department, Fire Authority, and Paramedics by ensuring they have adequate resources for proper response times.

Coordinate with all levels of government to communicate the existing emergency master plan and address response times for potential disasters.

Expand our county health care system by working together with existing hospitals and clinics.

Support the Orange County Transportation Authority in improving the 91 freeway and increasing bus, Metrolink, and Amtrak services.
